

## Dr Christine Jones

*Harvesting Light to Rebuild Your Soil*

### MOORA, WA 2-day Seminar & Field Visit

**Dr Christine Jones is an internationally renowned and highly respected groundcover and soils ecologist.**

“It’s a worldwide trend...farmers using more synthetic chemicals in their crops. This can be correlated with a decline in soil structure and soil function. Farmers are putting more fertiliser on and it’s becoming more expensive to grow crops. Plus they also have to put more insecticides and fungicides. We need to look at the whole system to see why crops are becoming more susceptible to disease, pathogens, drought, frost, salinity... Agriculture has a positive future, if we get off the (fertiliser) treadmill and look at how the plant did it using photosynthesis and supporting the microbial bridge. If we get the biology working again and restore microbial diversity, we can utilise the FREE CO<sub>2</sub> and FREE Sunlight Energy to rebuild soils and improve human health.” Dr Christine Jones [www.amazingcarbon.com](http://www.amazingcarbon.com)

**Come and learn more about how to Restore the Soil while Farming.**

**DATE:** Tuesday 7<sup>th</sup> & Wednesday 8<sup>th</sup> August 2018  
**COST:** \$95pp Multiple tickets \$70pp  
*Inc Lunch, MT/AT on the 7<sup>th</sup> & MT on the 8<sup>th</sup>*

#### DAY ONE

**Venue:** Moora Bowling Club  
101 Gardiner St, Moora WA 6510  
**Time:** 9.00am – 4.00pm
